Professional Summary

Motivated and detail-oriented Junior Full Stack Developer with hands-on experience in JavaScript, Python, React, Node.js, Express.js, MongoDB, and SQL. Passionate about AI and machine learning with proven experience in building data-driven applications and scalable web platforms. Seeking to contribute technical expertise and innovative solutions in a forward-thinking environment.

Technical Skills

- **Languages:** JavaScript, Python, C#, SQL
- **Web Development:** HTML, CSS, React, Node.js, Express.js, REST APIs
- **Databases:** MongoDB, SQL, SQLite
- **AI & Machine Learning:** Random Forest, Logistic Regression, SVM, KNN, LDA, SHAP
- **Data Analysis & Visualization:** Pandas, NumPy, Scikit-learn, Matplotlib, PowerBI
- **Tools & Frameworks:** Flask, Mocha, Chai, Visual Studio, Docker (basic), Git, GitHub
- **Cloud & DevOps:** AWS, Azure, Google Cloud (basic knowledge)
- **Collaboration:** Agile/Scrum, Slack, Git

Professional Experience

4IR Intern – Full Stack Developer

Accenture / University of Johannesburg – Johannesburg

Mar 2024 – Oct 2024

- Designed and deployed full-stack web applications with React, Node.js, Express.js, and Flask APIs.
- Built predictive ML models using Random Forest and SVM to assist business decision-making.

- Implemented cloud-based AI solutions for natural language processing and automation.
- Collaborated with cross-functional teams to support enterprise-level digital transformation initiatives.

Freelance Consultant – Machine Learning & Web Development

Remote

2020 – 2024

- Developed customized AI/ML solutions for small businesses focusing on predictive analytics.
- Built business intelligence dashboards integrated into full-stack web apps.
- Managed complete project cycles from data preparation to model deployment.
- Applied SHAP for model interpretability, enhancing transparency in AI solutions.

Key Projects

Dementia Prediction System

- Created a Flask-based ML model using Random Forest and Logistic Regression to predict dementia progression.
- Integrated SHAP for model transparency and compliance with data privacy regulations.
- Delivered an intuitive dashboard for real-time insights.

AI-Driven Medical Diagnosis System

- Developed a diagnostic AI tool using Microsoft Azure AI services for medical imaging.
- Showcased the solution at the Microsoft AI For Good Hackathon.

Education

Virtual CodeTribe Academy Bootcamp *(Web Development)*

April 2025 – Ongoing

- Virtual bootcamp focused on essential web development skills, collaboration, and hands-on project work.

University of Johannesburg

4IR Technologies Bootcamp – Qualification Obtained | 2024

Modules Completed:

- Agile Rapid Skills Acquisition
- Engineering Business Systems for 4IR
- Full Stack Web Development for 4IR
- 4IR Technologies Bootcamp

University of South Africa

BSc Honours in Computing

Modules Completed:

- Research Methods and Proposal
- Software Engineering
- Software Project Management
- Information Security
- E-Learning: Concepts and Principles
- Honours Research Report
- Human-Computer Interaction
- Enterprise Architecture

SIMAD University

BSc in Information Technology

Certifications

-
- **Python Bootcamp** – Udemy (Jun 2021)
 - **Full Stack Web Development Course** – Udemy (Nov 2021)
